

LIST OF COMMON SUPPLIES, TOOLS, AND EQUIPMENT FOR AMMUNITION AND EXPLOSIVES OPERATIONS

Fourth Edition October 2007

U.S. ARMY DEFENSE AMMUNITION
CENTER
LOGISTICS REVIEW AND
TECHNICAL ASSISTANCE OFFICE
McALESTER, OK 74501-9053

**U.S. ARMY DEFENSE AMMUNITION CENTER
McALESTER, OK 74501-9053**

**LIST OF COMMON SUPPLIES, TOOLS, AND EQUIPMENT FOR AMMUNITION AND
EXPLOSIVES OPERATIONS
FOURTH EDITION, OCTOBER 2007**

1. Selected supplies, tools and equipment routinely used in ammunition and explosives operations are presented in this listing. Part one is in nomenclature order, part two is in NSN order, and part three is in specification order. The list is intended to be used by personnel preparing Standing Operating Procedures (SOP's), requisitioning material, and/or providing technical advice on ammunition and explosives logistics.
2. The listing consists of data contained in FEDLOG. Data elements and code definitions are provided in the appendix. This list is intended to be used as a guide, and is not intended to replace official supply publications. You should view the item description as listed in FEDLOG or other publications/references to ensure the item meets your requirements. Additional supply information, such as price, type, class, grade, line item number (LIN), or verification of listed information should be determined from FEDLOG or other official supply publications/references.
3. Users are invited to send comments, corrections, additions, and suggested improvements to Director, U.S. Army Defense Ammunition Center, ATTN: SJMAC-AV, McAlester, OK 74501-9053. They may also be communicated via email to MCAL.DAC.SJMAC-AV@conus.army.mil, by FAX to DSN 956-6172, or commercial (918) 420-6172.
4. Local reproduction of this list is encouraged. The publication is not available in hardcopy.

Gail Palmore
Associate Director for Operations

APPENDIX

1. NOMENCLATURE – A brief description of items listed in FEDLOG or in some instances from previous versions of this guide.
2. National Stock Number (NSN) – Number assigned under the Federal Cataloging program, to each approved United States Federal item. It consists of the four digit Federal Supply Classification (FSC) and the nine digit assigned National Item Identification Number (NIIN).
3. Specification (SPEC) – Identifies military, federal or industry specification that describes design and characteristics of the item. In some instances, line item drawing number is listed, where specifications could not be ascertained.
4. Unit of Issue (UI) – A two position alphabetic abbreviation that expresses a determinate amount or quantity of an item that will be issued. This amount or quantity is the managing activity's established accounting unit upon which unit price is based, accountable records are maintained and requirements computed. See table 1 below for code definitions.
5. Unit of Measure (UM) – A two position alpha code indicating a recognizable physical measurement (length, volume or weight). A count of the item, such as foot, gallon, pound, each or sheet for the related NSN. See table 1 below for code definitions.

Table 1
Unit of Issue/Unit of Measure Code Definitions

BD – Bundle	EA – Each	PG – Package
BE – Bale	FT – Foot	PR – Pair
BG – Bag	GL – Gallon	QT – Quart
BX – Box	GR – Gross	RL – Reel
CK – Cake	HD – Hundred	RO – Roll
CL – Coil	KT – Kit	SE – Set
CN – Can	LB – Pound	SF – Square Foot
CO – Container	LG – Length	SH – Sheet
DR – Drum	OT – Outfit	TU – Tube
DZ – Dozen	OZ – Ounce	YD – Yard

6. Unit of Measure Quantity (QTY) – Amount of item, based on the unit of measure, for the related NSN; e.g., 5 gallons or 10 each.
